

FILTER BLASTER

A Revolutionary Tool for Air Filter Cleaning

Lower your costs with our proven and patented technology

REDUCES

fuel consumption

EXPANDS

the life of your filters

INCREASES

the life of your equipment

Save money after just 1 use

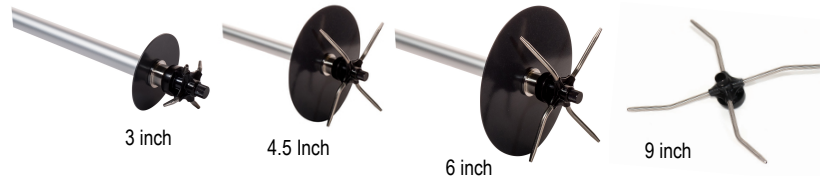

- *reduce filter replacement*
 - *reduce fuel consumption*
 - *reduce maintenance time*
- *ongoing savings that will improve your bottom line!*

· PATENTED TECHNOLOGY ·

Introducing the Rotor Disc Guard

Guard keeps the Rotor Centered Inside the Filter. The guard is slightly larger than the rotor to give added protection.

Additional rotors or other accessories extra

- 3 inch (76 mm) for filters with inside diameter under 6 inches
- 4.5 inch (115 mm) for filters with inside diameter 4.5" to 6 inch
- 9 inch (229 mm) for larger industrial filters
- 12 inch shaft extension for filters with depths above 26" (661mm)
- Cage for 3 inch rotor
